Adidas' font is neither clearly legible or distinguishable as pointed out by Twitter users over the past one week.. Is co-founder and managing director of, a small creative agency delivering big results.. I dare anyone who doesn't know these players to try to figure out Khedira's name by reading his shirt.

Adidas' World Cup Font Social Media Reactions This perfectly illustrates the problem about this "typeface".. Thanks, Julian OAAXLEA? — sportsfonts com (@sportsfonts_com) I can't get over how terrible the font that is using on their jerseys for the is — Anne???????????? (@picaae) The font for these Adidas numbers is shocking.. FIFA's equipment regulations state that the font used on all apparels must be legible and distinguishable by all players, match officials, spectators and the media.. Has anyone went and got the new shirt and a name on the back at the megastore and knows if this is the case or even if that font used last year is being used this year??The official Adidas' font, used on its FIFA World Cup jerseys, is causing confusion due to its square, Cyrillic-style letters and numbers.

11 or 17 or 77 (Obviously not 77 in the World Cup but still) — Craig Williams (@craigawilliams) I am fully on board with this Adidas font for turning Mertens into MEATENS — Brody Logan (@BrodyLogan) The Adidas font is absolute garbage.. The one i like best for standard sport #'s is called 'Yearbook Solid' Football Shirt FontFC Barcelona typeface is clinical yet stylish, as befits the Catalan club's principles The typeface itself is a contemporary sans-serif with a clean, dynamic feel.. The introduction of the cuts, as influenced by Gaudi's architecture, add not only a subtle reference to the city's cultural history, but also an energy and depth which don't detract from the characters' style and legibility.. Then read these! • • What do you think of the Barca typeface? Have you spotted any cool fonts on this season's football kits?Tell us in the Comments below!I was going to get a name and number on the back of my new shirt but the font my local store does is the original font used in the premier league.. — Cory Mizer (@CoryMizer) Because of this illegible Adidas font, Timo Werner appears to have 'Weaner' on his back — Bob Guerrero (@PassionateFanPH) I get that were going for a Russian Constructivism vibe, but their typeface feels too clunky and quirky and often illegible.. Given their fondness for 80s retro kits this year would they have been better off using this? Free zip software. 34bbb28f04 [Gratis Call Of Duty Mw 3](#)
